

## U. S. THREAT EFFECTIVE; MEXICAN REBELS GIVE UP PLAN OF BLOCKADE

Washington, Jan. 23.—The American naval demonstration in Mexican waters has resulted in the Mexican revolutionists backing down virtually completely in their announced blockade of the great oil port at Tampico. Consul Wood at Vera Cruz, headquarters of the De La Huerta rebels,

informed the State Department today that the defection regime has indefinitely postponed its blockade of the port. Three men died with Captain Herbert G. Sparrow in the wreck of the cruiser Tacoma on Blanquilla reefs, instead of two, as at first reported, according to a message received by the Navy Department today from Consul Woods.

They were: Edwin S. Herrick, Homer H. Lussier, Solomon Sidin. Captain Sparrow and his men were killed, according to the message by the pounding of the wreckage when heavy seas ran over the bulk of the cruiser as she lay on the reefs.

The cruiser Tacoma, her commander, Captain Herbert C. Sparrow and three others on board constituted the first fatality list today of the American effort to protect American interests in Mexico, and afford aid to President Obregon in suppressing the De La Huerta revolution.

The cruiser has been utterly lost and Captain Sparrow and the radio operators went down with the ship on Blanquilla reef, in keeping with navy tradition.

Beyond the bare outline of the tragedy, the Navy Department had no further dispatches today to indicate the manner in which Captain Sparrow and his aides met their death. Their ship was thrown broadside on the reefs last week due to the removal of the warning lights, presumably by agents of the De La Huerta regime in Vera Cruz.

Blanquilla reefs lie only 16 miles outside the harbor. The cruiser Richmond, which hastened to the aid of the Tacoma, took off other members of the crew, but Captain Sparrow elected to stay aboard the stranded vessel in hopes that she might be salvaged. Their position was believed safe until a "norther" broke over the gulf, described in radio dispatches as the most severe naval men have seen in years.

Huge waves dashed over the reefs making the position of the ship perilous and resulting finally in her being pounded to pieces, according to naval opinion.

Another delivery of arms and ammunition to the Oregon government has been arranged by the United States. It was announced today—5,000 more Enfield rifles, 2,500 automatic pistols and a quantity of ammunition.

Captain Sparrow was widely known in naval circles and was rated as one of the most competent of naval commanders. He was a native of Ohio, and graduated at the head of his class at Annapolis in 1899.

Albion, Pa. June 23.—Three persons, including the fireman and engineer were killed when the locomotive on the Pittsburgh and Lake Erie train number 17, enroute from Pittsburgh to Cleveland, blew up 500 yards west of the station here today.

The force of the explosion lifted the locomotive 100 yards off the rails and left it a mass of wreckage in the yard of the Jones Laughlin Steel Plant, bordering the tracks.

The number of passengers injured is not known.

No names of the victims were available an hour after the disaster.

The dead:

George Clark, of McKees Rocks, engineer.

Irvin Kuehler, of Pittsburgh, fireman.

J. R. Meade, Pittsburgh, road foreman of engines.

According to an official statement of officials of the Pittsburgh and Lake Erie Railroad, two hours after the accident, no coaches left the rails and no passengers were injured. They said a probe would be started immediately to determine the cause of the explosion.

The train was picked up by another locomotive and continued to Cleveland.

Police reports here immediately after the accident placed the dead at six but this railroad officials emphatically denied.

## FOOTBALL COACH ADDRESSES ROTARY CLUB AND GUESTS

The game of football was compared with the "game of life" by Dr. J. W. Wilce, athletic director at the Ohio State University, at the party held by the Xenia Rotary Club, for the Xenia High School football team, at the Elks' Club, Tuesday evening. Rotarians feasted 30 members of last year's team at dinner.

Coach Wilce gave the history of the greatest football players in the country, and explained the Olympic games to his audience. He told how players gain their letters, their preparation to "make the team," the different endowments different players possess, and the various methods that should be used to make good teams. He derided commercialism in football, and said that gambling was a detriment to the sport. He also gave an interesting account of the outstanding Ohio State games.

The program following dinner opened with music by Dr. A. B. Kester, Forest Hurley and Miss Helen Hurley. C. W. Murphy, president of the club, gave a short talk explaining the value and physical benefit of athletics in the schools. The various players introduced themselves, and told the positions they held on the team, and the same routine was followed by the club members. William Horner, one of the guests, sang a solo, followed by a piano solo by Kenneth Fulkerson, another guest.

# SENATE PLUNGES INTO TEAPOT DOME OIL LAND LEASE INQUIRY

## ACQUIT CREASY OF MURDER OF GIRL TEACHER

Mineola, L. I., Jan. 23.—William Creasy, Kentucky mechanic, was found not guilty this morning of the murder of his sweetheart, Miss Edith Lavoy, schoolteacher. The jury freed Creasy after deliberating nine hours.

It was Creasy's second trial. Previously he was sentenced to death and spent nine months in the death house at Sing Sing Prison. He gained a new trial on appeal, however.

About 200 persons remained in the courtroom during the long vigil from 7:30 o'clock last night while the jury deliberated.

Creasy, according to the evidence, was a married man, his wife living in Kentucky. He joined a matrimonial club and through it, began writing to Miss Lavoy, also a member. The couple exchanged over 100 letters when Creasy, who had fled suit for divorce, came to Long Island. His divorce plea was denied.

Regardless of this Creasy admitted he became engaged to Miss Lavoy and kept company with her. Then he testified, he met another young woman and fell in love with her.

Creasy said he then informed Miss Lavoy that he was married and told her of his cooling love.

Miss Lavoy killed herself, he said. She used a revolver belonging to Creasy. Her death occurred as she and Creasy sat on a sofa in her room. The state contended it was Miss Lavoy who had refused to marry Creasy and that he killed her in a jealous rage. Creasy re-enacted the death scene and this, it was learned, from the jurors, played a great part in his acquittal.

The shooting of Miss Lavoy occurred in June 1922.

There was no demonstration when the verdict was announced.

## TROTZKY ASKS ARMY SUPPORT

Moscow's communist organizations passed resolutions demanding that the central committee exert all power to end the controversy within the party, declaring that strife is ruinous to the party and to soviet power. The resolutions express the readiness of the rank and file to immediately respond to the call to defend the soviet. Perfect order reigns everywhere.

## MISS NORMAND NOW QUIZZED

Los Angeles, Jan. 23.—Judge J. Walker Hanby made a statement from the bench that there "appears to be a conspiracy" to suppress evidence in the hearing of Horace A. Greer, chauffeur for Mabel Normand, film actress, charged with shooting Courtland S. Dines, Judge Hanby said: "I am not at all satisfied with the testimony that has been given in this case. There appears to be a conspiracy on the part of the witnesses who have already testified to keep from the court many things that the court should know about this case."

Miss Normand testified that she did not recognize the pistol used by Greer, in the shooting, although she admitted she owned one similar to it. She also said she was in the bedroom of the Dines apartment with Edna Purviance when the shooting occurred.

Albert R. Leland, of Oak Park, Ill., one of the most fashionable of Chicago suburbs, has brought suit for divorce from Mrs. A. R. Leland, naming as correspondent their pastor, the Rev. Dr. Carl D. ## BOY IS SHOT DOWN BY TWO MEN IN CLEVELAND

Cleveland, Jan. 23.—Two unidentified assassins were sought by county authorities today, following the fatal shooting of Wilbert S. Visockey 18, last night, while in company with three other boys, on their way to a skating rink.

Visockey died shortly after midnight in a hospital here. In a statement just before he died, he said he saw two men some distance back on a park road near Lyndale, and believing them to be acquaintances he walked back to talk with them. As he drew near, he realized they were strangers and was about to return to his chums, when one of the men, without warning, drew a revolver and shot him in the hand. He said he then scuffled with the stranger for possession of the gun and was again shot. This second wound was fatal. The three lads were being questioned by County Prosecutor Stanton today in an effort to learn any facts that may shed light on the killing.

## SEE POLITICAL SIGNIFICANCE IN NEW FIGHT

Washington, Jan. 23.—The Teapot Dome fight was shifted to the floor of the Senate today.

Senator Caraway, Democrat of Arkansas, demanded immediate action on his resolution cancelling the lease for the naval reserve which ex-Secretary of Interior Fall granted, Harry F. Sinclair.

This latest angle of the Teapot Dome "mess" which already has set the machinery of several governmental governments into action, was regarded as being fraught with great political significance. Some Republican leaders in the Senate were said to welcome action upon the resolution in order that the present administration might be relieved of any further embarrassment in connection with the lease. Democrats were happy because it gave them additional opportunity to heap broadsides of criticism upon the Republican administration and some of its highest officials.

The Department of Justice, which, before President Coolidge's formal order, had been working on the case, announced that criminal prosecutions would be started immediately, without waiting for the close of the Senate's probe "if its agents are unable to unearth sufficient evidence of graft and corruption to justify such proceedings."

Havre, Jan. 23.—"I'll return to America as soon as it is convenient for me to do so," Harry Sinclair, oil magnate, declared here today upon his arrival aboard the liner Paris. Sinclair said he would go into the senate committee investigating the circumstances surrounding the leasing of the Teapot Dome Oil fields.

Sinclair has been asked by the committee to return to the United States at once to testify on Archie Roosevelt's charge that the Sinclair company paid the ranch foreman of former Secretary of Interior Fall, \$63,000.

Commenting on the resignation of Roosevelt from his companies, Sinclair expressed surprise.

"The International News Service dispatch to me aboard the Paris was the first intimation of Archie's resignation," he said. "There were no indications when I left the United States that he contemplated such action."

"The allegations that I brought the Teapot Dome records and my check-book stubs with me is all bunk," the oil man declared.

"If you want my honest opinion, the Teapot Dome deal was a good one for the government," Sinclair added. "The government got too much from the deal, in my opinion."

# A. G. PAULLIN DIES SUDDENLY WHILE ATTENDING MEETING

A. G. Paullin, 65, prominent retired farmer of Jamestown, died suddenly at one o'clock Wednesday afternoon a few minutes after he was taken ill while attending the sessions of the Farmers' Institute at the Venard Theater, Jamestown.

Mr. Paullin had been subject to heart attacks but had appeared in normal health shortly before the fatal attack. He was suddenly stricken in the theater and friends carried him to the office of Dr. A. D. Ritenour, Jamestown. Death took place on the way to the physicians office and was pronounced due to heart trouble.

Mr. Paullin was born at Grape Grove, Ross Twp., the son of Thomas Jefferson and Ella Van Gundy Paullin, pioneer Greene County citizens, and had spent practically all of his life in Ross Twp. Following his marriage to Miss Jennie Davis, he settled on a farm in Ross Twp., where he became one of the county's most prosperous farmers until his retirement and removal to Jamestown in 1915.

Since that time he had interested himself in the affairs of the village and began his second term as a village councilman last January 1. He was also a member of the Jamestown M. E. Church and of the official board of that Church and was also active in affairs of the Jamestown Lodge of Masons.

Surviving is his widow, Mrs. Jennie Paullin, and two daughters, Mrs. W. F. Martin, wife of Dr. Martin of Battle Creek, Mich., and Mrs. H. R. Little, wife of Dr. Little of Jeffersonville, O. A son, Herbert died in youth. One brother, David E. Paullin, of east of Jamestown, also survives.

Funeral arrangements will be announced later.

# REJECT OFFER OF EDW. BOK

Washington, Jan. 23.—Edward W. Bok, donor of the peace award, retraced his steps in a letter to Senator Moses, chairman of the senate committee of inquiry, in which he maintained that "ordinary good taste" was his reason for declining to answer certain questions asked him by the committee. Mr. Bok added that Cornelius Bliss, Jr., and the Girard Trust company of Philadelphia were custodians of the peace award funds, and could supply the information he declined to furnish.

Replying, Senator Moses wrote Mr. Bok as follows:

"It is to be regretted that you did not see fit, at the outset, to base your refusal to answer what the committee unanimously regarded as entirely proper questions upon the ground of 'ordinary good taste,' and refer us to Mr. Bliss or the Girard Trust company, instead of attempting to set yourself up as a privileged class of one to whom a special rule applies, and your answers to Senator Green and Senator Reed would indicate."

Mr. Bok's offer to turn the 22,164 plans over to the committee and offer another \$100,000 prize to the winner selected by the committee or some group selected by it, was characterized by Senator Moses as "wholly beside the mark." The senator wrote in reply: "If the committee wishes to have these documents, it has the power of subpoena to procure them."

# Styles BY LENORE

It is interesting to note that there is an obvious absence of formal afternoon dress at the tea hour in New York. At the Ritz, Pierre's and Sherry's, where it is fashionable to

go, there is, instead a decidedly boyish note in the clothes worn.

Sometimes it is a one-piece frock, as in the case of a reindeer brown frock of velvet with a semi-bolero blouse and a triple tier skirt. More often it is a traillleur, severely simple as the garconne type needs to be.

In the illustration you may see this type in its perfection of neatness.

This model is evolved in cafe au lait kasha with insets of white broadcloth, and plain bone buttons. The skirt, of course, is straight and cut short enough to clear slender ankles. And of course no hat can be more completely in harmony with this bachelor girl mode than the little cloche. Here it is shown as a black bankok with silver monogram on black satin ribbon.

## Wants a Local Tailoring Salesman for Xenia

For more than 25 years the ENGLISH WOOLEN MILLS STORE in Dayton has been by far the largest tailoring concern in Southern Ohio. This large business is the result of making fine made-to-measure clothes and selling at moderate prices.

In your community there are many men who buy English Clothes when they are in Dayton and hundreds of others who would buy in Xenia if they had the opportunity—because they know English Clothes having seen them advertised for years in Dayton newspapers.

We have prepared a wonderful group of fine all-wool fabrics, to be sold direct to the consumer at one low price—and that an extremely popular price.

We want an experienced tailoring or clothing salesman to handle our line, selling direct to Xenia men. It is a wonderful opportunity to build up a permanent business and make from \$50 to \$150 a week depending entirely on your efforts.

Our clothes are not to be classed with, nor have they any relation to, lines ordinary sold by agents selling direct to the consumer. English salesmen have many advantages over such lines—the confidence of the buyer is established, the clothes are Real Clothes, guaranteed to fit and give absolute satisfaction, and the Dayton Store stands behind every transaction and is equipped to give quick service to every customer.

Write at once, outlining your qualifications for the position, and we, in turn, will give you the full details of our proposition.

# SEE POLITICAL SIGNIFICANCE IN NEW FIGHT

(Continued from Page 1.)

Washington, Jan. 23.—Prosecution of all guilty persons and return to the navy of Teapot Dome oil reserve was decided upon by President Coolidge.

This was disclosed by Attorney General Harry M. Daugherty after a long conference at the white house with the president. The attorney general also revealed for the first time that department of justice agents have been investigating every phase of the lease for the last three weeks and had started their inquiry long before the senate committee got under way.

By direction of the president, Attorney General Daugherty has assigned Assistant Attorney General Holland to the case. Holland is sitting in the committee sessions as an official observer to see what will be disclosed that will give the department ground which to take action.

Officials of the navy department asserted that at the time of the transfer of naval oil reserves from the navy to the interior department was made in 1921, neither Secretary Denby nor his associates knew that Secretary of the Interior Albert B. Fall intended to lease them to private interests. Had this been known, it was stated, the navy department would have opposed the transfer. It was also stated that the idea of making the transfer originated with Secretary Denby and not with Fall, it having been Denby's opinion that such transfer would be beneficial to the navy. The navy had no logical bureau equipped to look after the properties.

The senate committee's investigation came to a temporary standstill until Friday to await the appearance of former Secretary Fall and J. C. Zevely, Sinclair's Washington representative. Subpoenas were issued and turned over to Sergeant-at-Arms Barry, of the senate for service. Service was made by wire to New Orleans, where the two have been the past few days.

The committee also ordered Sinclair's immediate return from Europe, whence he sailed last Wednesday from New York. E. E. Stanford, Sinclair's personal attorney, offered to cable Sinclair and promised to have him before the committee within a fortnight.

Several Democratic congressmen said Attorney General Daugherty is not the man to conduct such an investigation, having compromised himself by approving the Teapot Dome lease in the first place.

Senator Caraway announced the pledge of Republican support for his resolutions rescinding the leases of naval oil lands in Teapot Dome and California, on the ground that they were "fraudulently made."

## Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrups, and saves about 50% Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably would not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2 1/2 oz. of Pinex, pour it into a pint bottle and fill the bottle with syrup, either plain granulated sugar or clarified molasses, honey, or syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough, gives almost immediate relief, loosens the phlegm, stops the throat tickle and heals the sore, tated membranes so gently and effectively that it is really astonishing.

A day's use will usually over the ordinary cough and for bronchitis, croup, hoarseness and bronchial pneumonia, there is nothing better.

Pinex is a most valuable concentrated compound of genuine No. 1 pine extract, and has been used for generations to break severe coughs. To avoid disappointment, ask druggist for "Pinex" and don't get anything else. Guaranteed to give absolute satisfaction or promptly refunded. The Pinex Co., Ft. Wayne, Ind.

# What's the Reason?

**I**N thousands of homes where one or more of the family are nervous and irritable, the cause may be hidden—hard to understand. But usually, "There's a Reason."

Doctors and dietitians are very generally agreed that people who are nervous or suffer with digestive disturbances should not drink coffee or tea because these beverages contain a drug, caffeine, and their use tends to increase nervous irritability.

Many of us just drift into wrong habits of eating and drinking, though we usually know better. So if there are nervous ones in your family, suppose you make a change—serve Postum for thirty days.

Postum is a pure cereal beverage. It furnishes all the pleasure of a hot drink—cheery warmth and good flavor. Postum is refreshing, satisfying, healthful; and there's nothing in all the world quite so effective as health to overcome nervousness and make life worth while.

## PATHTIC APPEAL MADE BY WOMAN WHO LOSES SAVINGS

A classified ad for the return of lost money printed a few days ago in the Gazette-Republican carried with it a pathetic little story from real life.

An aged woman, widow of a soldier of the Civil War, had saved painfully bit by bit, from her pension the sum of about \$170 and was keeping the money for her burial. Wherever she went she carried with her the little black bag full of money so that in case she was suddenly stricken she would have with her sufficient money to send her body to Wilmington for burial by the side of the grave of her soldier husband.

A few days ago while in this city doing some shopping she lost the little black bag containing the money. She is now in the deep distress that can come only to helpless old age. The bills were enclosed in a government envelope and placed in the black bag. Information may be left at the Gazette office.

## CANINES MUST BE TAGGED BY END OF MONTH

Unattached dogs in Greene County are going to lead a dog-gone dog's life starting February 1.

Sheriff Morris Sharp has issued an edict that dogs whose rights to exist are not secured by a county license, must make themselves scarce on and after that date or be impounded in the county dog house.

Deputy Sheriff George Spencer, the Pied Piper of Greene County's dog kingdom, will be turned loose on unprotected canines equipped with his traveling kennel and dog net on and after that date.

People harboring dogs without a license will be subject to arrest and the dogs themselves will be subjected to painless execution. Dog owners who have not obtained tags for their canine pets are warned that the law provides a fine of from \$5 to \$25 and costs for such tardiness.

Officials say dog owners have had ample opportunity this month to equip their canines with the licenses provided by law, but that many have failed to do so. Dog license records in the office of R. O. Wead, county auditor, show the license business has been slow this season. It is due to pick up.

About 10,000 dogs have found their selves ensnared by Deputy Sheriff Spencer and if any dog thinks he is smart enough to evade the law he will have the opportunity to put his theories in practice after the first of February.

The dog catcher will check up on the records of last year and this year before venturing forth. He will scour the country side, invade the villages and clean up Xenia City in turn. Nobody will know, however, where he will turn up next.

## CHICAGO'S CIVIC OPERA SINGERS TO TOUR NATION

Chicago, Jan. 23—Chicago's Civic Opera Company will blaze a trail of harmony for 10,000 miles at the close of the opera season in Chicago January 26 and in a period of eight weeks will present grand opera in 17 cities. The itinerary includes cities from Boston in the East to Houston in the South, to San Francisco on the Pacific Coast.

Two special trains will be required to carry the approximately 225 people and the equipment necessary for the presentations.

C. A. Shaw, manager of the tour, has completed arrangements for the appearances of the company in Boston, the first city on the itinerary, beginning January 28 and ending February 9. From Boston the company will entrain for Cleveland, thence to Pittsburgh, Detroit, Cincinnati, Chattanooga, Tulsa, Houston, Dallas, Los Angeles, San Francisco, Portland, Seattle, Salt Lake City, Denver, Wichita. The tour will wind up at Kansas City, Mo., March 22.

Feodore Chaliapin will have the title role in "Doris Godunoff" and will appear, with Edith Mason, in "Mefistofele." Mme. Rosa Raisa will be the Rachel of "The Jewess"—a role in which she has never been excelled, according to critics. Mary Garden will be Cleopatra.

Mme. Claudia Muzio, dramatic soprano, will appear in Boston and Cleveland and, instead of continuing with the company, will go to Havana, Cuba, to fill an engagement and later to Mexico City. It is understood she is planning to return to Chicago next Autumn.

Myrna Sharlow, Alice d'Hermanov, Lucie Weston, Kathryn Browne, Maria Claessens, Forest Lamont, Angelo Minghetti, Jose Mojica, Harry Steier, Georges Baklanoff, Glacome Rimini, Desire Defrere, William Beck, Gildo Morelato, Alex-

ander Kipnis and Virgilio Lazari are some of the artists who will make their appearances on the national tour. Practically the entire company will go to Boston for the fortnight's engagement there.

## ARIZONA FORESEES PROSPEROUS YEAR

Phoenix, Jan. 23 High cotton prices, with a bounteous crop, together with successful diversified farming, promise unbounded prosperity for Arizona and the Salt River Valley this year.

The total yield of cotton will go far over the early estimates of 60,000 bales, it is stated on good author-

ity. Early oranges and grape fruit are now going on to the Eastern and European markets; the lettuce crop will soon be ready for harvesting. Conditions throughout the State seem more favorable than for months past. D. C. Jackling, head of one of the leading copper producing plants, said recently that the position of copper was as good if not better than that of any other metal.

While the copper market has been slightly under last year's quotations the increased sales have given reassurances that conditions are better. None of the large properties has closed down, and aid of the mining camps, including the gold camps of northern Arizona, are busy according to reports reaching the State's Mine Inspector's office.

### XENIA WOMEN HAVE INTEREST IN CONVENTION

The door of the Fifth Quinquennial Convention of the International Council of Women, to be held in Washington, in May 1925, is open to Xenia women who are affiliated with a number of organizations in the National Council.

Mrs. Philip North Moore, President of the National Council of Women of the United States announces that arrangements are well under way for the convention.

The National Council with a membership of eleven million American women, is a member of the International Council which has a membership of nineteen million women in foreign lands with Lady Aberdeen of Aberdeen and Tamar Scotland as president. The quinquennial meeting is held but once every five years and previous conventions have been held in London, Berlin, Rome, and Kristiania. This is the first international meeting that has ever been held in this country and club women everywhere are looking forward to the event with considerable anticipation and are giving Mrs. Moore and the Quinquennial Committee, Mrs. Nathaniel E. Harris of Bradford, Pa., Chairman, splendid co-operation in their efforts to make this the most notable gathering of women ever held anywhere in the world.

The Daughters of the American Revolution Memorial Building and the Pan American Building have both been placed at the disposal of Mrs. Moore for the Quinquennial. Dr. Flo. Jamison Miller of Monticello, Ill. has charge of the program correspondence and many important questions particularly those relating to the promotion of unity and greater understanding among the women of the world will come up for discussion. Prominent among them: Permanent Peace and International Arbitration; and Equal Moral Standard for men and women; Public Health, Immigration, The Industrial Position of Women, and Child Welfare.

American Club women are preparing a most cordial welcome for the delegates from foreign lands and many brilliant entertainments will be given in their honor. When the Quinquennial was held in Kristiania four years ago the Chairman Mrs. Anna Becker realizing that the attendance of delegates from very small or poor countries could not be assured unless an adequate fund was established to provide for expenses, secured by subscription a sufficient amount to entirely cover the cost of the Convention.

When the invitation from the National Council was extended Lady Aberdeen stated that the only thing that might interfere with a large attendance was the high rate of exchange existing in many of the foreign countries at present, which would make the expense of the trip to this country prohibitive and thereby bar the attendance of the delegates of many of the smaller clubs. In accordance with the established custom, the National Council of Women of the United States, the official hostess, under Mrs. Moore's inspiring leadership is already making financial arrangements that will adequately cover the entire cost of the Quinquennial meeting as well as insure the presence of all delegates. National Council women in every section of the country are joining hands in this great effort and no doubt exists as to the outcome.

Among the organizations in the National Council are:

General Federation of Women's Clubs, National League of Women Voters, National Women's Relief Society, Young Ladies National Mutual Improvement Society, National Women's Relief Corps., National Council of Jewish Women, National Florence Crittenton Mission, Ladies of the Maccabees, National Federation of Colored Women, Ladies of the G. A. R., American Association of Uni-

versity Women, Nat. Congress of Mothers and Parent-Teachers' Ass'n, National Federation of College Women, National Federation of Musical Clubs, Needlework Guild of America, International People's Aid Association, Women's International League for Peace and Freedom, Women's Christian Temperance Union, Young Women's Christian Association, Woodmen's Circle, National Women's Republican Association, Children of American Loyalty League, Kansas State Council, Rhode Island State Council, Indianapolis Local Council, Medical Women's National Association, International Sunshine Society, National American War Mothers, National Council Administrative Women in Education, National Kindergarten Association, Sons of Veterans' Auxiliary, National Auxiliary United Spanish War Veterans, Association of Women in Public Health, May Wright Sewell State Association.

### IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally by Drinking Quarts of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

### GIRLS! WHITEN SKIN

WITH LEMON JUICE  
The only harmless way to bleach the skin white is to mix the juice of two lemons with three ounces of Orchard White, which any druggist will supply for a few cents. Shake well in a bottle, and you have a whole quart-pint of the most wonderful skin whitener, softener and beautifier.

Massage this sweetly fragrant lemon bleach into the face, neck, arms and hands. It can not irritate. Famous stage beauties use it to bring that clear, youthful skin and rosy-white complexion; also to soothe red-rough or chapped hands and face. You must make this remarkable bleach yourself. It can not be bought ready to use because it acts best immediately after it is prepared.

## WORLD RECORD DAM TO BE CONSTRUCTED NEAR PACIFIC COAST

Construction will begin shortly on what is destined to be one of the greatest industrial projects of the New World, involving as does the damming of the Columbia River, the building of a large modern city, the irrigating of a desert, and the creation of the big hydroelectric power plant in this country, west of Niagara Falls.

The scene of this development is Priest Rapids, near the middle of Washington State, equidistant from Seattle and Spokane. The project is being put through by the Washington Irrigation and Development Company, a subsidiary of the General Electric Company, of which Henry J. Pierce of New York is president.

A quarter-billion dollars is the estimated cost, of which \$28,000,000 will be spent on the dam alone. This, it is reported, will be the largest power dam in the world, 90 feet high and three miles long. The water backed up behind it will make a lake 10 miles long by four miles wide. Except during high water, in the spring and summer months, 400,000 horsepower will be developed; during high water, 300,000 horsepower additional is expected.

The plan is to make Priest Rapids the western center for the electro-chemical industries. At present these industries are centered at Niagara Falls. The new plants and factories will supply General Electric products, not only to the west, but they expect to have all Asia for their market as well.

Of vital, though secondary importance, is the irrigation system which will reclaim 70,000 acres of sagebrush desert now owned by the company.

## PUT THE BLAME FOR LAW VIOLATION WHERE IT BELONGS

The interesting disclosure is made by Commissioner Enright, head of the police department of New York City, that marked progress has been made in reducing, by 80 per cent, the number of places where liquor is illegally dispensed in his district. This has been accomplished despite the repeal of the state enforcement law, the lack of co-operation by federal officials, the existence of "hostile public opinion," and the studied and continued indifference, according to his charges, of inspectors and other officials in his department whose duty it is to enforce the law. Coming closely upon the heels of the action instituted by the Mayor of Philadelphia, the activity in New York is indicative of a determination to wipe out, in the larger cities of the eastern section of the United States, the apparent conspiracies which have made flagrant violations of the Eighteenth Amendment possible.

One fact seems to have been established. It is that no large city can afford to countenance the continued violation of the law within its jurisdiction. The existence of the saloon, whether licensed or unlicensed, is a constant menace to society. It has no place in the economic scheme which the American people have adopted and which public sentiment approves, whatever may be said to the contrary.

Commissioner Enright will find, probably, that opposition to his crusade against the alleged official conspirators will not come from the public, but from those politicians, high and low, who, in opposition to popular sentiment, brought about, through connivance and intimidation, the repeal of the New York State enforcement code. The dignified and so-called respectable champions of this form of nullification are the citizens affiliated with the Association for the Prohibition Amendment, the Modification League, the Constitutional Liberty League, the faction of the American Federation of Labor for which Samuel Gompers speaks, and the other organizations openly or secretly financed by former liquor manufacturers and dealers, and the conscienceless profiteers who have lined their pockets with money gained from the modern bootlegging industry. Shame on them.

### WHEN JANET ISSUES HER COMMANDS

When Janet issues her commands  
Her language knows no forceful phrase,  
But still the household understands  
And young and old at once obeys.  
The proudest queen upon her throne,  
Trained to the purple and the crown,  
Her will makes not more clearly known  
Than Janet with a smile or frown.

What are these words which men employ?  
What is this speech we boast of here?

Without this gift we all enjoy  
Janet can make her meaning clear.  
When she would ride upon your knee  
She'll let you know, beyond a doubt,  
And you her romping steed will be  
Until she's had her gallop out.

She'll lead you by the hand afar,  
She'll take you up and down the stairs,  
You'll know just what her wishes are,  
You'll find her dolls and teddy bears.  
She has a way of making known

### HARDING MEMORIAL LOCATION

Marion, O., Jan. 22.—With a view to providing an appropriate location for the proposed Harding Memorial and also for future extension of the cemetery, the trustees of the very association announced today they had purchased forty-three acres of land, known as the Uncapher tract, which is located just south of the cemetery along the Delaware river, bought from Mrs. Effie Uncapher for \$1,000 an acre.

Just what it is she wills to do;  
She rules the house, and she alone,  
And well we understand her, too.

Just eighteen months, and yet, I vow  
That little princess rules us all,  
Unto her slightest whim we bow,  
Tyrants are greatest when they're small!

Slaves to her laughing eyes are we,  
With eager feet and willing hands  
We revel in love's tyranny  
When Janet issues her commands.

Helsingfors, Jan. 22.—Ten thousand persons have been arrested or deported at Moscow in the past week, according to information received here today. It was explained that the arrests were due to the moral "clean-up" but they have caused considerable anxiety owing to the quarrel between Trotsky and the central executive committee of the communist party.

It is an accepted fact, the world over, that French and Italian cookery is more savory than that of any other nations. The cooks of those two countries are masters at seasoning foods. Here are some Italian dishes which you will enjoy.

**Cauliflower "in Stufato":** Wash a good-sized cauliflower then break it up into "flowerets" and boil those, in salted water for 20 or 30 minutes, till tender. Drain them from the water without breaking, and arrange them on slices of buttered toast. In the meantime, make a sauce (to pour over them) as follows: Put three tablespoons of butter in a frying pan, and when melted rub into it two tablespoons of flour; add two cups of canned chicken soup (or any soup stock you have on hand) and when it boils, add also six finely chopped cooked mushrooms (the canned variety will do); remove this hot mixture from the fire and add to it the well-beaten yolks of two eggs, one-half teaspoon of salt, a pinch of pepper, a pinch of grated nutmeg and the juice of one small lemon. Pour this sauce over the vegetable and serve at once. (Take

care not to let the sauce boil after you add the eggs.)

**Boconcin:** Either lamb, veal or fresh pork may be used in making this dish. Cut up the meat (using one-half pound of it) into pieces two inches square—perhaps a little larger. Sprinkle the pieces with salt and pepper and set them aside. Now cut an equal number of pieces of bread about one-half inch thick and a little larger than the meat-pieces. Next cut sliced ham into pieces the size of the meat (but use twice as much ham as the prepared meat-pieces). Now take a skewer and spear on it first a piece of bread, then a piece of ham, then a leaf of sage, then a piece of the meat first prepared, then another sage-leaf then still another piece of ham—and so on, in this order, always having the meat between two leaves of sage, two slices of ham and two pieces of bread. Coat everything well (especially the bread) with olive oil or melted butter, and broil the entire stickful over a hot fire for about 20 minutes—turning constantly till they are a golden brown and crisp. Or, if you prefer, you can place the skewerful of meat and

MR. GEORGE W. HARRIS, NEW ATHENS O.

"The difference in my condition from what it was a week or two ago is surprisingly good," remarked Mr. George W. Harris to the Ka-di-ok Man a few days ago. Mr. Harris runs a general store in New Athens, Harrison county, and is known to every one in the town. He further continued: "When I started taking my first bottle of Ka-di-ok my health was very poor. I had no appetite and nothing tasted good to me; I suffered constantly from bowel trouble and was very weak. I was just strong enough to keep on my feet, but that was about all. Ka-di-ok, as I said before has brought about a great change in my general condition. I am hungry all the time and eat as hearty as I did when I was a boy. I feel much stronger and my bowel trouble has about all gone. It would be impossible for any remedy to do me any more good than Ka-di-ok."

If you are not feeling alright, try Ka-di-ok, and get your system back in shape.

Ka-di-ok can be had in Xenia at Sayre and Hemphill Drug Store.

## Today's Talks

### THE AIMS OF LIFE

Oliver Wendell Holmes, speaking of Emerson, has this to say: "The end and aim of his being was to make truth lovely and manhood valorous, and to bring our daily life nearer and nearer to the eternal, immortal, invisible."

And so, running down the years, the thoughts and teachings of the Emerson mind have enriched all mankind and put new aims and renewed efforts into the strivings of those who have been touched by his influence.

Without steady aims behind what we do, all effort falls in a heap, spineless and of no account.

There is no need to worry about what we are going to get out of this life just so long as we can be sure that we are putting something of standard value into it.

The sordid thing about money making is that you are all the time after something that has nothing to do with character worth. And then another thing about keeping before you the money reward, when you got it you are liable to boast about something that someone else, less fortunate, has not got.

And if there is one standard in this world for measuring worth that is false through and through, it is the money standard.

So that if you would be truly happy, aim toward those things not represented by mere money value.

The aims of life should be wrapped about the pleasant and the helpful. And we shouldn't bother our heads about Heaven and rewards. There is nothing so wonderful as helping to build Heaven here and now, and the rewards of service are rarer and

more precious than any other that can be imagined.  
Run through the very warp and woof of your life thinking and doing, aims, healthy aims!

# WILBERFORCE U HAS STIFF END OF SKED AHEAD

Although the Wilberforce University basketball team has the important end of the schedule still ahead of it, the team will meet the supreme test against Morehouse College, February 22, it is announced by Dean Mohr, athletic director.

Remaining games on the Wilberforce schedule include a tilt with the Beavers of Alpha, January 23, a game with Kentucky Normal, February 18, a set-to with West Virginia College Institute February 18 and the meeting with Morehouse on Washington's birthday. The varsity defeated the Academy 29 to 21 at Wilberforce Monday night.

Morehouse will bring two of the greatest colored basketball players in college circles, Gayles and Bailey, both of Evanston, Ill. High School team. Wilberforce claims the other two great court stars in Ward and Willett, and the game will furnish a meeting between these super court performers. Neither team has been defeated this season.

Morehouse comes to Greene County with the same reputation the Leondri Club did last year and has the same Coach. Because of the great crowd expected, six extra sections of bleachers has been ordered for Beacom Gym. Tickets may be obtained from Charles F. Points Jr., Wilberforce University, Wilberforce, Ohio.

Officials will be Paul H. Cresswell, Cedarville College, and either Earl Prugh, Ohio Wesleyan or Russ Finsterwald, Ohio University.

# HOPPE RESUMES LEAD IN MATCH BILLIARD PLAY

Chicago, Jan. 23.—Jake Schaefer, challenger, for the world's 18.2 ball line championship at billiards, must score 751 points to Willie Hoppe's 500 tonight to regain the title, now held by Hoppe.

Hoppe overcame Schaefer's lead of 131 points made in the opening block and in a fine run of 182 in the thirteenth inning of last night's play, took the lead from the Californian.

The champion ticked off 631 points while Schaefer was netting 239. The match now stands:

Schaefer 739.

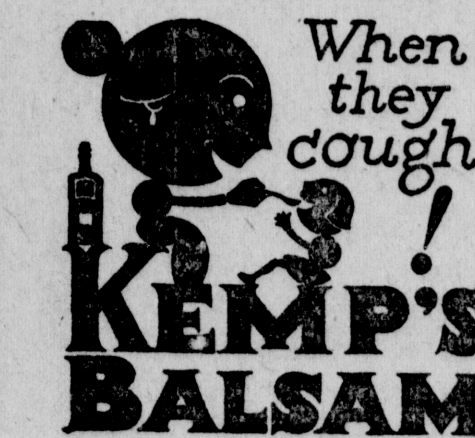

Neither champion or challenger were in their best form and the violent reversal of front displayed by the weather, which switched from below zero to hints of spring, was credited with making the balls bumpy and averse to English. Both players complained to the referee and new balls were rolled in, in the fifth inning.

Though neither player displayed startling billiards, Hoppe seemed to have better control, with runs of 85 and 172 in addition to his mark of 182.

# SINCLAIR MAY NOT ENTER ZEV

Havre, Jan. 23.—Harry Sinclair, American sportsman, and oil promoter declares upon his arrival here upon the steamship Paris today that the projected invasion of England by his two thoroughbred Zevs and Grey Lag, next summer, depended upon how the horses developed in training. He indicated he would not ship the thoroughbreds unless absolutely certain they would be able to do themselves justice.

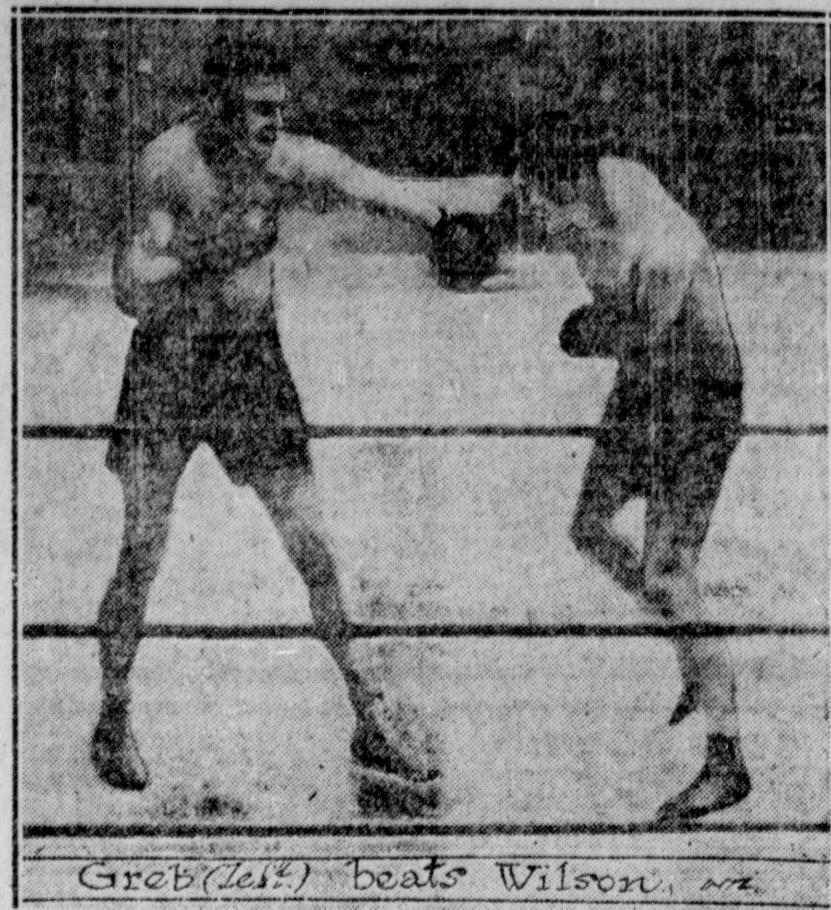

In the event that Zev and Grey Lag are sent to England, Sinclair said they would be given sixty days training on the island in order to become acclimated.

By DAVIS J. WALSH

I. N. S. Sports Editor  
New York, Jan. 23.—More or less immediate developments in the strange case of Rabbit Maranville, the non-refillable shortstop with whom the Pirates vain would part, are being anticipated by those who keep an index finger on the pulse of major league affairs.

It is said Maranville may be sent to Boston within a few days and passed onto the St. Louis Cardinals.

# EAST HIGH FIVE RATED HIGH IN COURT CIRCLES

East High School basketball team ranks as one of the four greatest colored high school teams in the country.

This is the opinion of Dean Mohr, athletic director at Wilberforce, who has kept in close touch with the colored athletes of the country, whether of high school or college age.

Mohr ranks the colored high schools as follows: Wendell Phillips High, Chicago; Clarksburg, W. Va.; High; Armstrong High of Washington D. C., and East High of Xenia. Wendell Phillips High is probably the class of the lot according to Coach Mohr, and will probably take the championship of the Chicago High School League this year. That school has been defeated but once by a colored team, and that victory was scored by the Evanston St. of Evanston, when it was coached by Mohr. Coach Mohr gives credit for the success of the Xenia five to Coach Lloyd Lewis, to Principal Arthur Taylor and the wonderful spirit shown by the team.

BANK CLOSING ITS DOORS

Kenton, O., Jan. 23.—The Mt. Victory Savings bank, organized by the Boone family of Mt. Victory, this country, in 1906, has closed its doors and a state bank examiner is making an audit of the bank's records. The bank is to be taken over by the Mt. Victory bank, of which Henry E. Dickinson is president.

Two things are regarded as certainities, however. One of them is that Maranville will not remain in Pittsburgh, the other that he will not come to the Giants. Barney Dreyfus will countenance no deal for the Rabbit without a strict understanding that he is not to be passed onto John McGraw.

"This would mean that waivers would be withdrawn and the bidding opened. We would bid pretty high for a man of Maranville ability. In the event we landed the Rabbit, he would be used as our regular second baseman and Ward moved over to shortstop, replacing Scott. However this is merely speculation. I regard it as being very unlikely that Maranville will ever get as far as the American League, at least not for several seasons."

# WESLEYAN MUST RE-BUILD TRACK TEAM THIS YEAR

Delaware, Jan. 23.—With the largest track squad ever assembled at Ohio Wesleyan reporting for daily workouts, Coach George Gauthier is busy rebuilding the Methodist team, his 1923 Big Six winners having been badly hit by graduation last June. A total of 88 men are on the squad, 52 being 'varsity' candidates and 36 freshmen.

From this record-breaking varsity squad Gauthier must find new material to take the place of nine tracksters lost through graduation if his 1924 team is to duplicate last year's championship record.

BANK CLOSING ITS DOORS

Kenton, O., Jan. 23.—The Mt. Victory Savings bank, organized by the Boone family of Mt. Victory, this country, in 1906, has closed its doors and a state bank examiner is making an audit of the bank's records. The bank is to be taken over by the Mt. Victory bank, of which Henry E. Dickinson is president.

Two things are regarded as certainities, however. One of them is that Maranville will not remain in Pittsburgh, the other that he will not come to the Giants. Barney Dreyfus will countenance no deal for the Rabbit without a strict understanding that he is not to be passed onto John McGraw.

"This would mean that waivers would be withdrawn and the bidding opened. We would bid pretty high for a man of Maranville ability. In the event we landed the Rabbit, he would be used as our regular second baseman and Ward moved over to shortstop, replacing Scott. However this is merely speculation. I regard it as being very unlikely that Maranville will ever get as far as the American League, at least not for several seasons."

Wesleyan graduated half of its winning relay team. Cook, winner of the mile at the 1923 Big Six, is not in school but it is hoped he will enter for the second semester for he is eligible for two more years of competition.

Harley Pearce, Hillsboro, sophomore, who broke last fall as one of the speediest halfbacks on the circuit, is the only performer of known class among the sophomore candidates for the team. Pearce is an all around track and field man but will add strength to the Methodist team in the dashes, hurdles and jumping events especially.

**We'd Like To See  
Bacon Do It NOW!**

"A wise man will make more opportunities than he finds," wrote Bacon in one of his essays.

We will concede that Bacon was a wise man—wise enough in his day to make more opportunities than he could possibly find by the most minute search.

But we'd like to see him come back to earth today and make more opportunities than any child can find with ease in the A-B-C Classified Section.

In Bacon's day they didn't have any place in which were assembled all the opportunities of a community.

The wise man of today can find more opportunities than he can possibly use. All he has to do is to consult the perfectly catalogued offers which are both numerically and alphabetically listed in the A-B-C Classified Section!
